

About Best Doctors

Best Doctors identifies and solves the most complex, critical and costly problems in health care by combining data analytics and top clinical talent with our highly personal methodology across a global network.

Founded in 1989 by Harvard Medical School physicians, Best Doctors helps members take control of their health. Through our various services, Best Doctors complements the care members receive from their own physicians, providing expert medical advice so they can make the best possible medical decisions.

Medical uncertainty is a problem.
Best Doctors is your solution.

Driven by Quality

Our independently certified polling process and internal verification steps allow us to identify the top 5% of physicians worldwide, so members get the doctors other doctors trust most.

Powered by Technology

From advanced health analytics to working with the latest EHRs, our focus on innovation puts powerful tools in members' and clients' hands to find high-need, high-value opportunities.

Global Operations

We work with clients and members all across the world and analyze organizational culture to determine the most effective strategies for communication and operations.

Comprehensive Service

We handle the entire case, from intake to record collection to expert review. We can even integrate with other health vendors to increase referrals and improve outcomes.
